Executive Summary for the Purchase of a Data Center Air Conditioning Unit

The County's Capital Improvement Program includes a project for the purchase and installation of a new data center air conditioning unit. This 2017 budgeted purchase is funded by the Information Technology Department's Capital Projects Account. The purpose of the project is to more adequately condition the air in the County's data center and to work in tandem with the existing air conditioning unit.

The Information Technology staff specified the data center air conditioning requirements and accordingly solicited bids for the purchase of a Liebert unit designed for data center air conditioning. Two qualified vendors submitted bids based on the requested specifications for the following:

- A Liebert CRV Air-Cooled Precision Cooling System, Model CR035RA1C7, and
- A Liebert MC Air-Cooled Microchannel High Efficiency Condenser, Model MCM040E1YDA203.
- Installation

The lowest bid was submitted by General Heating and Air Conditioning of Madison, WI, and the submitted bid price is \$66,900.00.
