Executive Summary

In 2018 Rock County moved from Data Protector to Arcserve to provide for its data backup, replication and recovery solution. Rock County IT currently has two appliances that house a copy of all the systems data for its backup and recovery. In addition to following industry best practices, we are also bound by financial, historical, and other regulatory requirements to retain backup copies of data for specific time periods. In order to follow those regulations we must purchase an additional ArcServe unit.

This software and the installation services are available through Vanguard Computers, Inc. via state contract number: 18-2052

This resolution authorizes Rock County Information Technology to make this necessary purchase, not to exceed \$67,250.
