- 4. New Business**
 - a. Governor's proposed budget**
 - i. Terry passed around information about the Governor's proposed budget changes that impact biking and walking: proposed repeal of the statewide Complete Streets Law, \$2 million reduction in the Transportation Alternatives Program, and freezing the Stewardship Program. Members agreed Rock County has benefited from the law and the two programs and will research specific benefits to Rock County communities. Terry will craft a letter for the full TCC to consider at the next meeting. It may be more appropriate for the committee to craft a resolution for the Board of Supervisors.**
 - b. Bike Sharing Programs**
 - i. Members continued to discuss demand for a bike sharing program. Karl suggested demand may exist for a connection from the JTS transfer station to around town via bike, especially for UWW students riding the Janesville-Milton-Whitewater bus.**
