ISSUE - Approve DPW Office Lighting Design Contract

DISCUSSION - The main Department of Public Works (DPW) facility on Newville Road in Janesville was occupied in 1981. For the most part, it contains the same lights and light fixtures that were installed in the building when it was built. These lights are very energy inefficient and in many cases are too dim and/or emit a bad color hue for the workers.

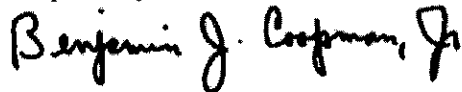

The Department applied for an energy grant from Focus on Energy to change out the lights throughout the entire DPW complex. A grant was awarded and funds were budgeted in 2011 to make these upgrades in the main shop and garage areas. Due to budgetary constraints, the remainder of the work in the parts stockroom and business office was split out for 2012. Funds were included in the 2012 DPW budget for this second phase of work, including design engineering.

The Janesville architectural/engineering firm of Angus Young was selected in 2010 to study the project for the Focus on Energy grant application, as well as design the first phase work in the shop and garages in 2011. They have many pieces of field data collected and first hand knowledge of the projects due to their work efforts on these previous phases.

This action approves award of a design contract for the second construction phase design for a fixed fee of \$4,500. DPW staff in conjunction with the Purchasing Division would then take the Angus Young design documents, solicit bids and oversee construction of the project.

RECOMMENDATION – Award a contract to Angus Young for design of phase 2 lighting improvements for the lump sum of \$4,500.

Respectfully submitted,

Benjamin J. Coopman, Jr., P.E.
Public Works Director
