TOP OF DISK BROKE OFF. FD BRASS STEM OF DISK, NE & SE REFERENCE MONUMENTS. FD PIPE 3.15' TO THE SW OF STEM. THIS PIPE WAS CONNECTED TO THE TURTLE TWP MONUMENTATION PROJECT.

C) Was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?

ACCEPTED FOUND PERPETUATED LOCATION OF THE INTERSECTION OF THE DISTANCE TO THE REFERENCE TIES. THIS POSITION IS SLIGHTLY DIFFERENT THAN THE BRASS PLUG, BECAUSE THE LOCATION ON THE TOP OF THE DISK WAS NOT "DEAD CENTER" WITH THE PLUG.

D) Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (a), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 4 of the witness monuments shown on the drawing in (a), above.

I, **Donald Barnes**, hereby certify that the corner location as identified by the corner code index was determined by me under my direction and control and that this U.S. Public Land Survey Monument Record is correct and complete to the best of my knowledge and belief.
