FOUND PIN IN MONUMENT BOX AND TIES OF RECORD.

C) Was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?
ACCEPTED FOUND LOCATION.

D) Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (a), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 4 of the witness monuments shown on the drawing in (a), above.

G-13(1)

(E) Was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning the corner location.

NO

I, Donald Barnes, hereby certify that the corner points as identified by the corner code index were, in a field survey, established, re-established, monumented, re-monumented, recovered or restored as expressed below and in conformance with the regulations and rules as required in the current manual of survey instructions of the United States Department of Interior, Bureau of Land Management.
