C) Was the corner restored through acceptance of (1) an obliterated
evidence location, or, (2) a found perpetuated location?
ACCEPTED PERPETUATED LOCATION.

D) Describe any material discrepancy between the location of the
corner as restored or reestablished and the location of that corner as
previously restored or reestablished by distance and direction. Show
the discrepancy on the plan view drawing under (a), above. Show the
distances between the corner as previously restored or reestablished
and (1) the corner as restored or reestablished, and (2) to at least 4
of the witness monuments shown on the drawing in (a), above.

(E) Was the corner reestablished through lost corner proportionate
methods? If so, show the method, including the directions and
distances to other public land survey corners used as evidence or used
for proportioning the corner location.

I, Donald Barnes, hereby certify that the corner location as identified
by the corner code index was determined by me under by direction and
control and that this U.S. Public Land Survey Monument Record is
correct and complete to the best of my knowledge and belief.
