Description: This will be a dynamic training, utilizing the expertise of 2 current peer specialists working at ILR. It will be interactive, with activities, presentations, role playing, and sharing. The purpose of the training is to learn the skills to be a Peer Support Specialist. The curriculum was developed by the National Association of Peer Specialists (NAPS), but we will be adding local and regional resources too. Be prepared to move around, have fun, grow, and give. After successful completion of the training, you will be eligible to take the state certification test to become a Certified Peer Specialist in the state of Wisconsin.

Expectations: There will be an expectation to participate! There will be reading outside of class and an evaluation at the end of the training. Our approach will be relaxed; we aim to have fun and show that recovery really happens.
