(b.) Describe any record evidence, monument evidence, occupational evidence, testimon	ial pyidopoo or
terr and the state of the state	al cylochice of
any other material evidence you considered, and whether the monument was found o	r nlaced

I have found the Aluminium Monument and the cut drill hole ties as established and shown on page 48, Fulton Book 2 of the Rock County Surveyor's Office, dated December 4, 1983 by T. Thom Jr. (Thom states that a 1" iron pipe was found at corner which was set in a C.M.C.P., and replaced with an sluminium spike monument). I retied the corner as shown below.

(c.) Was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?

Acceptance of a found perpetuated location.

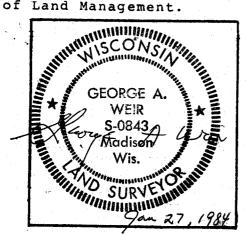

(d) Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 4 of the witness monuments shown on the drawing in (d), above.

No known discrepancy.

(e) Was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location.

No.

I, George A. Weir , hereby certify that the corner points as identified by the corner code index were, in a field survey on Jan. 12, 1984 , established, re-established, monumented, re-monumented, recovered or restored as expressed below and in conformance with the regulations and rules as required in the current manual of survey instructions of the United States Department of Interior, Bureau of Land Management.
