Donald Barnes
Rock County Surveyor
Court House
Janesville, Wi. 53545

Dear Don:

I have the information that you mailed to me March 3, 1992 in regard to the line between Wisconsin and Illinois.

The information you have states that the road center line at the East line of Rock County is 33 feet North of the State line. In our work in Walworth County we have found old monuments on the center line of the present road all across the Town of Sharon and we have used these monuments as the State line.

Do you have anything that refutes this information? I enclose herewith a copy of the survey that we just have made of Section 31 to 36 of Sharon. It does not appear to me that the North - South substantiate such a claim that the South line of State line road is the State line.

Do you have anything that we are not aware of that would change our records for the location of the State line?

Thank you for anything that you can furnish me.

Very truly yours,

Lloyd L. Jensen
