Petition of C. L. Clausen and Nine Others

Telephone: Pleasant 2-7471
Extension 237

TO THE HONORABLE COMMISSIONERS OF HIGHWAY FOR THE
TOWN OF NEWARK

We the undersigned freeholding in the Town of Newark do hereby humbly petition the honorable Commissioners of Highway for the Town of Newark to annul the road that commences on the section line between Sections four and five several rods south from the school house and runs from there in a north west direction so that it strikes the quarter line in Section five about 26 rods west from the quarter stake by the school house. Said line between Sections 4 and 5 and proceeds farther also in a north west direct on to the center of the west half of the Northeast quarter of Section 5 from whence it runs due west to the line between Range 10 and 11. This road we wish to be annulled as useless and inconvenient - -

We further petition the honorable Commissioners to lay out a road along the section line between Section 4 & 5 commencing by the quarter stake on said line and run from there due north to the Town line between Towns 1 & 2 in Range 11.

Newark December 18th 1847

ORDER OF COMMISSIONERS * ON THE ABOVE PETITION NUMBER 8

At a meeting of the Commissioners of Highways of the Town of Newark held at the School House near C. L. Clausens on the third day of June A. D. 1848 for the purpose of taking into consideration the subject of a petition signed by C. L. Clausen and nine others for altering a highway as requested by said petitioning in the North west corner of the Town of Newark. We do order and determine to discontinue the highway that commences on the section line between Sections 4 and 5 several rods south from the school house and runs from there in a north west direction so that it strikes the quarter line in Section 5 about 26 rods west from the quarter stake by the school house or said line between Sects 4 and 5 and proceeds farther also in a north west direction to the center of the West half of the north east quarter of Section 5 from whence it runs due west to the line between Range 10 and 11.
