## EXECUTIVE SUMMARY

### Authorizing Purchase of Faster Asset Solutions Upgrade for Use by the Rock County Department of Public Works for Fleet Management

The Rock County Department of Public Works procured an Asset/Equipment Management software system in May of 1999. This system is still in use and is a Windows based environment. FASTER asset solutions offers a Web-based, cloud hosted option that will preserve our historical asset management information while upgrading to a more efficient, user-friendly and secure Web based environment. Upgrading FASTER Asset Solutions software also more closely aligns with the strategic direction of the Information Technology Department.
