- Executive Summary -

The Department of Public Works Main Complex on Newville Road in Janesville was built in 1981. The lighting throughout the building was designed and installed to standards in effect at that time. The light fixtures in the truck/equipment repair shop and garage areas are very energy inefficient and give off a brightness and color of light that is very poor for the work being done there.

The Department, in conjunction with the county Purchasing Division, solicited bids for a first phase project to replace the lights in the repair shop and garage areas.

Staff is recommending the award of a contract to Richter Electric of Janesville, WI in the amount of \$98,996 for the project. They were the lowest responsible bidder on the project. It is proposed to carry forward \$98,996 from the 2011 Department budget. The carry forward amount is comprised of \$55,000 budgeted for the lighting project plus \$44,996 of savings on other DPW buildings and grounds projects done in 2011 to fund this project at this time.

- Executive Summary -

The Department of Public Works was approved by its building insurance carrier for replacing the salt shed door on the Department's new salt shed on Newville Road following a strong windstorm that destroyed the original door in the summer of 2011. An insurance damage claim was filed and a recovery of \$6,800 was received. A different, stronger style of roll-up door is now being proposed.

The Department, in conjunction with the county Purchasing Division, solicited bids to replace the door.

Staff is recommending the award of a contract to Bower City Door of Janesville, WI in the amount of \$14,347 for the door. They were the lowest responsible bidder on the project. It is proposed to reallocate the insurance recovery amount and \$7,547 in net savings on other DPW buildings and grounds projects done in 2011 to fund this project.
