Executive Summary

Creating the County CCOP Advisory Committee

The Children's Community Options Program (CCOP) Advisory Committee will meet the second Friday of each month and be part of the Coordinated Services Team (CST) Advisory Committee. The Committees guide the system of care in Rock County for children who have physical, developmental and/or emotional disabilities. They work in the context of a larger system of care under the oversight of the County's Behavioral Health Redesign Steering Committee.

The CCOP Advisory Committee members will need to learn about the Program, how it operates, and its outreach role in the community. It will have the primary responsibility to oversee the development and continued monitoring of the Program. Community partners include the Health Department, agencies and individual providers who serve children with disabilities, and parents of children with disabilities. The goals are to provide quality service for children who qualify, increase community capacity and advocacy.
